

NEODECAPINT SOMBRAS FORTE

Graffiti shadow remover for porous surfaces.

- ✓ **High effectiveness.**
- ✓ **Removes graffiti from marker pens and graffiti shadows.**
- ✓ **Fast action.**
- ✓ **Sprayable.**

Description

Neodecapint Sombras Forte is a stripper-cleaner specially designed for the removal of shadows and graffiti traces made on medium to high porosity surfaces, being the perfect complement to finish the cleaning of difficult graffiti that has previously been stripped leaving traces or shadows.

Neodecapint Sombras Forte combines solvents with high disintegrating capacity, paint digesting alkalis and surfactants that improve product performance. This combination of ingredients dissolves the remaining pigments of the before cleaned graffiti, eliminating shadows in a few minutes, resulting in a complete cleaning of the treated surface.

This special composition allows Neodecapint Sombras Forte to be used on all types of surfaces commonly used in construction, such as: concrete, caravista rustic brick, marble, granite, slate, sandstone or wood among others.

Neodecapint Sombras Forte has a low viscosity texture, so it can be applied by spraying as well as with a brush or roller. This application method allows for higher working speed, optimizing cleaning times and reducing chemical consumption.

Application Areas

Neodecapint Sombras Forte is to be used as a shadow cleaning supplement after the removal of graffiti on very porous surfaces or with graffiti heavily impregnated into the surface. For example, after using Neodecapint Cleaner on brick or concrete surfaces.

NEODECAPINT SOMBRAS FORTE

Graffiti shadow remover for porous surfaces.

Physical-Chemical Characteristics

APPEARANCE	DENSITY	COMPOSITION
Reddish colour clear liquid.	1.15 ± 0.010	Medium boiling point solvents, surfactants, alkalis and excipients.

Mode of Application

Neodecapint Sombras Forte is a ready to use product.

1. Slightly moisten the area to be cleaned, then apply Neodecapint Sombras Forte.
2. Leave it on for 5 - 30 minutes without allowing the product to dry on the surface, rubbing lightly with a bristle brush.
3. Rinse preferably with plenty of hot pressurized water.

Format

Plastic container with degasifier cap: 1 litre.

Industrial packaging: 5, 30 and 60 litres.

Recommendations

Keep away from any source of heat, ignition or sparks.

Keep out of reach of children.

Prior to using any graffiti stripper, it is recommended to perform a preliminary test to verify the full compatibility of the product with the surface.
